

INNOVATIVE
PROCESSING SOLUTIONS, LLC

**ENGINEERED & DESIGNED
FROM START TO FINISH**

Why Settle for Equipment When You Can Get Solutions? At Innovative, we don't just sell equipment, we sell solutions.

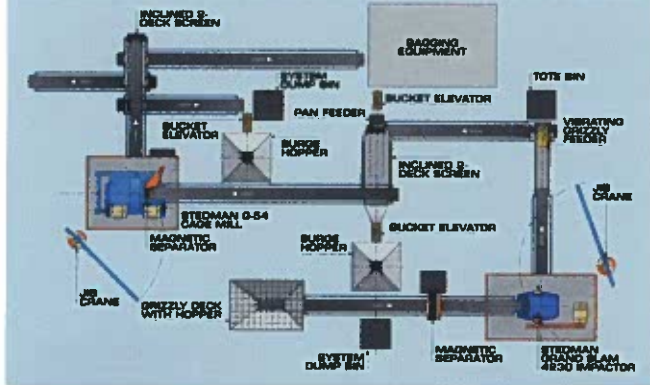

We ask a lot of questions. We crunch a lot of numbers. We examine your operation, uncover your objectives and establish your budget. Then we design a solution, test your materials and confirm our predictions to make absolutely certain that the Innovative Processing solution you purchase produces profits, not problems.

Experience for Sale.

Innovative solutions aren't always the cheapest in the short term. But our customers will attest to the fact that our solutions outperform lesser equipment with far fewer maintenance worries. That's because our team of veteran personnel combine their expertise in structural, construction and mechanical fields to deliver quality solutions that perform now, and adapt down the road. Innovative reliability means you'll recover your investment more quickly — and be able to more accurately predict your maintenance budget and operational potential.

CUSTOM CRUSHING SYSTEMS

Proven Dependability. Unparalleled Service. True Value. Now That's Innovative.

- Consultation and operational recommendations
- Comprehensive system design and project planning
- System layout and specification development
- Material handling systems and design
- System controls designed with integrated sensors and PLCs
- Environmental solutions for dust and fumes
- Full-scale crushers in our test plant to accurately confirm operational output predictions using your materials
- Comprehensive project management and installation supervision
- Unparalleled customer service and system support

So, What Do You Need? Size reduction equipment? Vibratory screens or conveyors? Surge bins and hoppers? An entire system replacement?

Relax. Whether you need a single conveyor, screen or piece of equipment...a system section upgrade...or a custom designed system for your new facility, Innovative has you covered. From system layout and specification development, to complete manufacturing design and installation supervision, you simply will not find a more resourceful, more experienced, more dependable source than Innovative Processing Solutions.

It Costs Nothing to Compare: Put Us on Your Short List.
